"We are proud to reaffirm our commitment to New Jersey by maintaining our affordable benefit-rich PPO plans for 2025," said Jamie Reynoso, Clover's CEO of Medicare Advantage. "At a time when many plans are scaling back, Clover is the calm in the eye of the storm, delivering stability and increased value for our members."

Clover's 2025 plans in New Jersey focus on PPOs, but also include HMO offerings to cater to a wide range of healthcare needs. PPO plans offer highly competitive in-network and out-of-network costs, empowering members to access the care they need without the burden of high out-of-pocket expenses. For 2025, Clover has strengthened its product positioning to minimize disruption while delivering added value to members including low specialist and prescription drug copays, enhanced OTC and dental allowances, and a rewards program with the potential to earn up to \$400 annually for completing healthy activities.

"After a decade of serving New Jersey's Medicare beneficiaries, we understand the unique struggles they face, and we are committed to providing plans that deliver premium value as well as help them manage their day-to-day healthcare costs," added Reynoso. "From offering the \$400 rewards program to ensuring access to low-cost prescriptions and primary care, we're here to help our members stay healthy without compromising on quality or affordability."

Clover's 2025 PPO plans received a 4 Star rating from the Centers for Medicare and Medicaid Services ("CMS"). Currently, over 95% of Clover's Medicare Advantage membership is served through its PPO plans.
