- CFO, Peter Kuipers, will participate in the 22nd Annual Craig-Hallum Institutional Investor Conference on Wednesday, May 28, 2025.

About Clover Health:

Clover Health (Nasdaq: CLOV) is a physician enablement technology company committed to bringing access to great healthcare to everyone on Medicare. This includes a focus on seniors who have historically lacked access to affordable, high-quality healthcare. Our strategy is powered by our software platform, Clover Assistant, which is designed to aggregate patient data from across the healthcare ecosystem to support clinical decision-making and improve health outcomes through the early identification and management of chronic disease. For our members, we provide PPO and HMO Medicare Advantage plans in several states, with a differentiated focus on our flagship wide-network, high-choice PPO plans. For healthcare providers outside Clover Health's Medicare Advantage plan, we extend the benefits of our data-driven technology platform to a wider audience via our subsidiary, Counterpart Health, and aim to enable enhanced patient outcomes and reduced healthcare costs on a nationwide scale. Clover Health has published data demonstrating the technology's impact on [Medication Adherence](#), as well as the earlier identification and management of [Diabetes](#) and [Chronic Kidney Disease](#).
