

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, DC 20549**

**FORM 10-Q**

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2025

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from \_\_\_\_\_ to \_\_\_\_\_

Commission File Number: 001-39252

**Clover Health Investments, Corp.**

(Exact Name of Registrant as Specified in its Charter)

**Delaware**

(State or other jurisdiction of  
incorporation or organization)

**Not Applicable<sup>(1)</sup>**

(Address of principal executive offices)

**98-1515192**

(I.R.S. Employer  
Identification No.)

**Not Applicable<sup>(1)</sup>**

(Zip Code)

**Not Applicable<sup>(1)</sup>**

Registrant's telephone number, including area code

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Class A Common Stock, par value \$0.0001 per share	CLOV	The NASDAQ Stock Market LLC

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes  No

At October 31, 2025, the registrant had 424,304,898 shares of Class A Common Stock, \$0.0001 par value per share, and 92,373,157 shares of Class B Common Stock, \$0.0001 par value per share, issued and outstanding.

<sup>(1)</sup> We are a remote-first company. Accordingly, we do not maintain a headquarters. For purposes of compliance with applicable requirements of the Securities Act of 1933, as amended, and the Securities Exchange Act of 1934, as amended, stockholder communications required to be sent to our principal executive offices may be directed to the email address: secretary@cloverhealth.com, or to our agent for service of process at The Corporation Trust Company, 1209 Orange Street, Wilmington, Delaware 19801.

#### **CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). All statements contained in this Quarterly Report on Form 10-Q, other than statements of historical fact, including statements regarding our future results of operations, financial position, market size and opportunity, our business strategy and plans, the factors affecting our performance and our objectives for future operations, are forward-looking statements. The words "believe," "may," "will," "estimate," "continue," "anticipate," "intend," "could," "should," "would," "can," "expect," "project," "outlook," "forecast," "objective," "plan," "potential," "seek," "grow," "target," "if," and the negative or plural of these words and similar expressions are intended to identify forward-looking statements. We have based these forward-looking statements largely on our current expectations and projections about future events and trends that we believe may affect our financial condition, results of operations, business strategy, short-term and long-term business operations and objectives and financial needs. These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including the risk factors described in Part II, Item 1A, "Risk Factors" of this Quarterly Report on Form 10-Q. Moreover, we operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for our management to predict all risks, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements we may make. In light of these risks, uncertainties and assumptions, the future events and trends discussed in this Quarterly Report on Form 10-Q may not occur, and actual results could differ materially and adversely from those anticipated or implied in the forward-looking statements. Forward-looking statements contained in this Quarterly Report on Form 10-Q involve a number of judgments, risks and uncertainties, including, without limitation, risks related to:

- our expectations regarding results of operations, financial condition, and cash flows;
- our expectations regarding the development and management of our Insurance business;
- our ability to maintain and increase adoption and use of Clover Assistant, including the expansion of Clover Assistant technology for external payors and providers serving the Medicare eligible population under the brand name Counterpart Assistant;
- our ability to successfully enter new service markets and manage our operations;
- anticipated trends and challenges in our business and in the markets in which we operate;
- any current, pending, or future legislation, regulations or policies that could have a negative effect on our revenue, profit margins, cash flows and business, including, without limitation The Patient Protection and Affordable Care Act, or the ACA, and other rules, regulations, and policies relating to healthcare, Medicare generally and medical loss ratios;
- our ability to effectively manage our beneficiary base and provider network;
- the anticipated benefits associated with the use of Clover Assistant, including our ability to utilize the platform to manage our medical loss ratios;
- our ability to maintain or improve our Star Ratings or otherwise continue to improve the financial performance of our business;
- our ability to develop new features and functionality that meet market needs and achieve market acceptance;
- our ability to retain and hire necessary employees and staff our operations appropriately;
- the timing and amount of certain investments in growth;
- the outcome of any known and unknown litigation and regulatory proceedings;
- fluctuations in the price of our Class A common stock and our continued compliance with Nasdaq's listing requirements;
- our ability to maintain, protect, and enhance our intellectual property;
- general economic conditions and uncertainty; and
- persistent high inflation and fluctuating interest rates.

We caution you that the foregoing list of judgments, risks, and uncertainties that may cause actual results to differ materially from those in the forward-looking statements may not be complete. You should not rely upon forward-looking statements as predictions of future events. The events and circumstances reflected in the forward-looking statements may not be achieved or occur or may be materially different from what we expect. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements. Except as required by law, we undertake no obligation to update any of these forward-looking statements after the date of this Quarterly Report on Form 10-Q or to conform these statements to actual results or revised expectations.

This Quarterly Report on Form 10-Q contains estimates, projections, and other information concerning our industry, our business, and the markets for our products. We obtained the industry, market, and similar data set forth in this Quarterly Report on Form 10-Q from our own internal estimates and research and from industry research, publications, surveys, and studies conducted by third parties, including governmental agencies, and such information is inherently subject to uncertainties. Actual events or circumstances may differ materially from events and circumstances that are assumed in this information. You are cautioned not to give undue weight to any such information, projections or estimates.

As a result of a number of known and unknown risks and uncertainties, including without limitation, the important factors described in our reports filed with the SEC, including the discussion under "Risk Factors" in this Quarterly Report on Form 10-Q, our actual results or performance may be materially different from those expressed or implied by these forward-looking statements.

#### **Additional Information**

Our website address is [www.cloverhealth.com](http://www.cloverhealth.com). Our filings with the SEC are posted on our website and available free of charge as soon as reasonably practicable after they are electronically filed with, or furnished to, the SEC. The content on our website or on any other website referred to in this document is not incorporated by reference in this document. Further, the Company's references to website URLs are intended to be inactive textual references only.

#### **Channels for Disclosure of Information**

Investors and others should note that we routinely announce material information to investors and the marketplace using filings with the SEC, press releases, public conference calls, presentations, webcasts, and the investor relations page of our website at [investors.cloverhealth.com](http://investors.cloverhealth.com). We use the investor relations page of our website for purposes of compliance with Regulation FD and as a routine channel for distribution of important information, including news releases, analyst presentations, financial information, and corporate governance practices. We also use certain social media channels as a means of disclosing information about the Company and our products to our customers, investors, and the public, including @CloverHealth and #CloverHealth on X and the LinkedIn accounts of our Chief Executive Officer, Andrew Toy, and our Chief Financial Officer, Peter Kuipers. The information posted on social media channels is not incorporated by reference in this report or in any other report or document we file with the SEC. While not all of the information that we post to the investor relations page of our website or to social media accounts is of a material nature, some information could be deemed to be material. Accordingly, we encourage investors, the media, and others interested in the Company to review the information that we share on our investor relations page of our website at [investors.cloverhealth.com](http://investors.cloverhealth.com) and to sign up for and regularly follow our social media accounts. Users may automatically receive email alerts and other information about the Company when enrolling an email address by visiting "Email Alerts" in the "Investor Resources" section of our website at [investors.cloverhealth.com](http://investors.cloverhealth.com).

The accompanying notes are an integral part of these condensed consolidated financial statements.

**CLOVER HEALTH INVESTMENTS, CORP.**  
**Notes to the Condensed Consolidated Financial Statements**

**1. Organization and Operations**

Clover Health Investments, Corp. (collectively with its affiliates and subsidiaries, "Clover" or the "Company") is focused on empowering physicians to identify and manage chronic diseases early. Clover has centered its strategy on building and deploying technology through its flagship software platform, Clover Assistant, to help America's seniors receive better care at lower costs.

Clover aims to provide affordable, high-quality Medicare Advantage plans, including Preferred Provider Organization ("PPO") and Health Maintenance Organization ("HMO") plans, through its regulated insurance subsidiaries. The Company's regulated insurance subsidiaries consist of Clover Insurance Company and Clover HMO of New Jersey Inc., which operate the Company's PPO and HMO health plans, respectively. Medical Service Professionals of NJ, LLC, houses Clover's employed physicians and the related support staff for Clover's in-home care program. Clover's administrative functions and insurance operations are primarily operated by its Clover Health, LLC and Clover Health Labs, LLC subsidiaries.

Clover's approach is to combine technology, data analytics, and preventive care to lower costs and increase the quality of health and life of Medicare beneficiaries. Clover's technology platform is designed to use machine learning-powered systems to deliver data and insights to physicians in order to improve outcomes for beneficiaries through the early identification and management of chronic disease and drive down costs. Clover's MA plans generally provide access to a wide network of primary care providers, specialists, and hospitals, enabling its members to see any doctor participating in Medicare willing to accept them. Clover focuses on minimizing members' out-of-pocket costs and offers many plans that allow members to pay the same co-pays for primary care provider visits regardless of whether their physician is in- or out-of-network.

In 2024, the Company launched Counterpart Health, Inc., a new Software-as-a-Service ("SaaS") and Tech Enabled Services Solution to bring the power of CA Technology to Medicare Advantage payors and providers. This external offering aims to equip clinician users with the Company's already built, clinician-centric, and AI-powered care management platform. Strategically, Counterpart Health, Inc., a subsidiary of Clover Health, aims to extend the benefits of data-driven proven technology and personalized care to a wider audience, enabling enhanced patient outcomes and reduced healthcare costs across the nation. Counterpart Health is complementary to Clover Health, and enables the Company to deploy and expand the reach of its existing technology asset for new potential growth and high margin business opportunities, with low startup costs.

For additional information, see Note 1 included in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 (the "2024 Form 10-K").

**2. Summary of Significant Accounting Policies**

***Basis of presentation***

The Company's condensed consolidated financial statements have been prepared in conformity with the generally accepted accounting principles in the United States ("GAAP") as well as in accordance with the rules and regulations of the U.S. Securities and Exchange Commission (the "SEC") and include the accounts of the Company and its wholly-owned subsidiaries. In the opinion of management, the Company has made all necessary adjustments, which include normal recurring adjustments, necessary for a fair presentation of its financial condition and its results of operations for the periods presented. All material intercompany balances and transactions have been eliminated in consolidating these financial statements. Investments over which we exercise significant influence, but do not control, are accounted for using the applicable accounting treatment based on the nature of the investment. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes to the financial statements included in the 2024 Form 10-K.

***Use of estimates***

The preparation of the condensed consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that impact the amounts reported in the condensed consolidated financial statements and the accompanying notes.

The areas involving the most significant use of estimates are the amounts of incurred but not reported claims. Many factors can cause actual outcomes to deviate from these assumptions and estimates, such as changes in economic conditions, changes in government healthcare policy (including CMS's May 2025 announcement of its intention to significantly increase the volume of Risk Adjustment Data Validation ("RADV") audits), advances in medical technology, changes in treatment patterns, and changes in average lifespan. Accordingly, the Company cannot determine with precision the ultimate amounts that it will pay for, or the timing of payment of actual claims, or whether the assets supporting the liabilities will grow to the level the Company assumes prior to payment of claims. If the Company's actual experience is different from its assumptions or estimates, the Company's reserves may prove inadequate. As a result, the Company would incur a charge to operations in the period in which it determines such a shortfall exists, which could have a material adverse effect on the Company's business, results of operations, and financial condition. Other areas involving significant estimates include risk adjustment provisions related to Medicare contracts and the valuation of the Company's investment securities, reinsurance, premium deficiency reserve, stock-based compensation, recoveries from third parties for coordination of benefits, and final determination of medical cost adjustment pools.

#### ***Equity method of accounting and variable interest entities***

Investments in entities in which the Company does not have control but its ownership falls between 20.0% and 50.0%, or it has the ability to exercise significant influence over operating and financial policies, are accounted for under the equity method of accounting.

The Company continuously assesses its partially-owned entities to determine if these entities are variable interest entities ("VIEs") and, if so, whether the Company is the primary beneficiary and, therefore, required to consolidate the VIE. To make this determination, the Company applies a qualitative approach to determine whether the Company has both the power to direct the activities of the VIE that most significantly impact the VIE's economic performance and the obligation to absorb losses of, or the rights to receive benefits from, the VIE that could potentially be significant to that VIE. If the Company has an interest in a VIE but is determined to not be the primary beneficiary, the Company accounts for the interest under the equity method of accounting.

When the Company's carrying value in an equity method investee company is reduced to zero, no further losses are recorded in the Company's condensed consolidated financial statements unless the Company guaranteed obligations of the investee company or has committed additional funding. When the investee company subsequently reports income, the Company will not record its share of such income until it equals the amount of its share of losses not previously recognized.

#### ***Segment information***

The Company operates as one reportable segment, Insurance. The Insurance segment provides PPO and HMO plans to Medicare Advantage members in several states.

#### ***Capitalized software development costs - cloud computing arrangements***

The Company's cloud computing arrangements are mostly comprised of hosting arrangements that are mostly service contracts, whereby the Company gains remote access to use enterprise software hosted by the vendor or another third party on an as-needed basis for a period of time in exchange for a subscription fee. Implementation costs for cloud computing arrangements are capitalized if certain criteria are met and consist of internal and external costs directly attributable to developing and configuring cloud computing software for its intended use. These capitalized implementation costs are presented in the Condensed Consolidated Balance Sheets within Prepaid expenses and are generally amortized over the fixed, non-cancelable term of the associated hosting arrangement on a straight-line basis.

#### ***Deferred acquisition costs***

Acquisition costs directly related to the successful acquisition of new business, which are primarily made up of commissions costs, are deferred and subsequently amortized. Deferred acquisition costs are recorded within Other assets, current in the Condensed Consolidated Balance Sheets and are amortized over the estimated life of the related contracts. The amortization of deferred acquisition costs is recorded within General and administrative expenses in the Condensed Consolidated Statements of Operations and Comprehensive Loss. For the three months ended September 30, 2025 and 2024, charges related to deferred acquisition costs of \$5.1 million and \$2.7 million, respectively. For the nine months ended September 30, 2025 and 2024, charges related to deferred acquisition costs of \$12.2 million and \$5.5 million, respectively, were recognized within General and administrative expenses.

## ***Reclassifications***

Certain amounts presented in prior periods have been reclassified to conform to the current presentation.

## ***Recent accounting pronouncements***

### *Recently adopted accounting pronouncements*

There have been no new accounting pronouncements adopted during the nine months ended September 30, 2025 that had a material impact on the Company's condensed consolidated financial statements.

### *Accounting pronouncements effective in future periods*

In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740): Improvements to Income Tax Disclosures*. The amendments in this update aim to provide more transparency regarding tax disclosures mainly related to the rate reconciliation and income taxes paid information. ASU 2023-09 is effective for fiscal years beginning after December 15, 2024, however, these disclosures are not required for interim periods. The Company is currently evaluating the impact of ASU 2023-09 on its consolidated financial statements and related disclosures.

In November 2024, the FASB issued ASU 2024-03, *Income Statement-Reporting Comprehensive Income-Expense Disaggregation Disclosures (Subtopic 220-40)*. The amendments in this update would require a public entity to disclose information about purchases of inventory, employee compensation, depreciation, intangible asset amortization, and depletion for each income statement line item that contains those expenses. ASU 2024-03 is effective for annual reporting periods beginning after December 15, 2026 and interim reporting periods beginning after December 15, 2027. ASU 2024-03 allows for early adoption and requires either prospective adoption to consolidated financial statements issued for reporting periods after the effective date of ASU 2024-03 or retrospectively to any or all prior periods presented in the consolidated financial statements. The Company is currently evaluating the impact of ASU 2024-03 on its consolidated financial statements and related disclosures.

In July 2025, the FASB issued ASU 2025-05, *Financial Instruments-Credit Losses (Topic 326): Measurement of Credit Losses for Accounts Receivables and Contract Assets*. The amendments in this update provide a practical expedient for entities when estimating expected credit losses on current accounts receivable and contract assets. The expedient allows an entity to assume that economic conditions as of the balance sheet date will remain unchanged for the remaining life of the asset when forecasting expected credit losses. The ASU is effective for fiscal years beginning after December 15, 2025, and interim periods within those fiscal years. The Company is currently evaluating the impact of ASU 2025-05 on its consolidated financial statements and related disclosures.

In August 2025, the FASB issued ASU 2025-06, *Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*. The amendments in this update modernize the accounting for costs related to internal-use software to better align with current software development practices, such as agile methodologies. The update removes the previous stage-based model for capitalization. Instead, capitalization will begin when management authorizes and commits funding to a project, and it is probable the project will be completed for its intended function. The ASU is effective for annual periods beginning after December 15, 2026, with early adoption permitted. The Company is currently evaluating the impact of ASU 2025-06 on its consolidated financial statements and related disclosures.

In September 2025, the FASB issued ASU 2025-07, *Derivatives and Hedging (Topic 815) and Revenue from Contracts with Customers (Topic 606): Derivatives Scope Refinements and Clarification for Share-Based Noncash Consideration from a Customer in a Revenue Contract*. The amendments in this update expand the scope exception in Topic 815 to exclude certain non-exchange-traded contracts with underlying based on the operations or activities of one of the parties to the contract. Additionally, the update clarifies that share-based noncash consideration received from a customer is subject to the guidance in Topic 606 until the right to consideration is unconditional. The ASU is effective for annual periods beginning after December 15, 2026, with early adoption permitted. The Company is currently evaluating the impact of ASU 2025-07 on its consolidated financial statements and related disclosures.

### 3. Investment Securities

The following tables present amortized cost and fair values of investments at September 30, 2025 and December 31, 2024, respectively:

September 30, 2025	Amortized cost	Accumulated unrealized gains	Accumulated unrealized losses	Fair value
(in thousands)				
Investment securities, held-to-maturity

The following table presents the amortized cost and fair value of debt securities at September 30, 2025, by contractual maturity:

September 30, 2025	Held-to-maturity		Available-for-sale	
	Amortized cost	Fair value	Amortized cost	Fair value
(in thousands)				
Due within one year	\$ 1,800	\$ 1,801	\$ 11,185	\$ 10,985
Due after one year through five years	12,273	12,183	180,011	180,682
Due after five years through ten years	—	—	—	—
Due after ten years	111	89	—	—
Total	<u>\$ 14,184</u>	<u>\$ 14,073</u>	<u>\$ 191,196</u>	<u>\$ 191,667</u>

For the three and nine months ended September 30, 2025 and 2024, respectively, net investment income, which is included in Other income in the Condensed Consolidated Statements of Operations and Comprehensive Loss, was derived from the following sources:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
(in thousands)				
Cash and cash equivalents	\$ 3,138	\$ 4,488	\$ 7,472	\$ 10,120
Short-term investments	—	232	—	548
Investment securities	2,134	2,099	7,090	6,351
Investment income, net	<u>\$ 5,272</u>	<u>\$ 6,819</u>	<u>\$ 14,562</u>	<u>\$ 17,019</u>

Gross unrealized losses and fair values aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position were as follows at September 30, 2025 and December 31, 2024, respectively:

September 30, 2025	Less than 12 months		Greater than 12 months		Total	
	Fair value	Unrealized loss	Fair value	Unrealized loss	Fair value	Unrealized loss
(in thousands, except number of positions)						
U.S. government and government agencies and authorities	\$ 14,345	\$ (32)	\$ 24,729	\$ (511)	\$ 39,074	\$ (543)
Corporate debt securities	14,794	(11)	1,400	(1)	16,194	(12)
Total	\$ 29,139	\$ (43)	\$ 26,129	\$ (512)	\$ 55,268	\$ (555)
Number of positions		21		11		32

  

December 31, 2024	Less than 12 months		Greater than 12 months		Total	
	Fair value	Unrealized loss	Fair value	Unrealized loss	Fair value	Unrealized loss
(in thousands, except number of positions)						
U.S. government and government agencies and authorities	\$ 78,065	\$ (850)	\$ 39,542	\$ (1,128)	\$ 117,607	\$ (1,978)
Corporate debt securities	53,009	(447)	—	—	53,009	(447)
Total	\$ 131,074	\$ (1,297)	\$ 39,542	\$ (1,128)	\$ 170,616	\$ (2,425)
Number of positions		65		15		80

The Company did not record any credit allowances for debt securities that were in an unrealized loss position at September 30, 2025 and December 31, 2024.

At September 30, 2025, all securities were investment grade, with credit ratings of BBB or higher by S&P Global or as determined by other credit rating agencies within the Company's investment policy. Unrealized losses on investment grade securities are principally related to changes in interest rates or changes in issuer or sector related credit spreads since the securities were acquired. The gross unrealized investment losses at September 30, 2025, were assessed, based on, among other things:

- The relative magnitude to which fair values of these securities have been below their amortized cost was not indicative of an impairment loss;
- The absence of compelling evidence that would cause the Company to call into question the financial condition or near-term prospects of the issuer of the applicable security; and
- The Company's ability and intent to hold the applicable security for a period of time sufficient to allow for any anticipated recovery.

Proceeds from sales and maturities of investment securities, inclusive of short-term investments, and related gross realized gains (losses) which are included in Other income in the Condensed Consolidated Statements of Operations and Comprehensive Loss, were as follows for the three and nine months ended September 30, 2025 and 2024, respectively:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
(in thousands)				
Proceeds from sales of investment securities	\$ 34,394	\$ 47,804	\$ 113,707	\$ 47,804
Proceeds from maturities of investment securities	—	42,137	25,801	108,788
Gross realized gains	190	170	635	174
Gross realized losses	(2)	—	(10)	—
Net realized gains	\$ 188	\$ 170	\$ 625	\$ 174

At September 30, 2025 and December 31, 2024, the Company had \$14.9 million and \$14.7 million, respectively, in deposits with various states and regulatory bodies that are included as part of the Company's investment balances.

#### 4. Fair Value Measurements

The following tables present a summary of fair value measurements for financial instruments at September 30, 2025 and December 31, 2024, respectively:

<b>September 30, 2025</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total Fair Value</b>
(in thousands)				
U.S. government and government agencies	\$ —	\$ 118,419	\$ —	\$ 118,419
Corporate debt securities	—	72,963	—	72,963
Private equity investments	—	—	15,250	15,250
Warrants receivable	—	—	1	1
Other	—	285	—	285
Total assets at fair value	<u>\$ —</u>	<u>\$ 191,667</u>	<u>\$ 15,251</u>	<u>\$ 206,918</u>

<b>December 31, 2024</b>	<b>Level 1</b>	<b>Level 2</b>	<b>Level 3</b>	<b>Total Fair Value</b>
(in thousands)				
U.S. government and government agencies	\$ —	\$ 138,261	\$ —	\$ 138,261
Corporate debt securities	—	88,502	—	88,502
Private equity investments	—	—	—	—
Warrants receivable	—	—	764	764
Other	—	1,953	—	1,953
Total assets at fair value	<u>\$ —</u>	<u>\$ 228,716</u>	<u>\$ 764</u>	<u>\$ 229,480</u>

The changes in balances of Clover's Level 3 financial assets and liabilities during the nine months ended September 30, 2025 were as follows:

	<b>Equity Investments</b>	<b>Warrants Receivable</b>	<b>Total</b>
(in thousands)			
Balance, December 31, 2024	\$ —	\$ 764	\$ 764
Realized gains	—	835	835
Unrealized gains (losses)	13,424	(854)	12,570
Purchases	—	—	—
Sales	—	(744)	(744)
Transfers in	1,826	—	1,826
Balance, September 30, 2025	<u>\$ 15,250</u>	<u>\$ 1</u>	<u>\$ 15,251</u>
Unrealized gains (losses) for assets still held, included in Net loss	\$ 13,424	\$ (18)	13,406

The \$13.4 million of realized and unrealized gains for the nine months ended September 30, 2025, is recognized within Other income line item within the Condensed Consolidated Statement of Operations and Comprehensive Loss. There were \$1.8 million of transfers into Level 3 financial assets for the nine months ended September 30, 2025.

### ***Private Warrants***

During the nine months ended September 30, 2025, the Company had exercisable private warrants which were embedded in several agreements as derivatives. These private warrants were accounted for as assets in accordance with ASC 815-40, *Derivatives and Hedging*, and are presented in Other assets, non-current in the Condensed Consolidated Balance Sheets. The warrant assets are measured at fair value at inception and on a recurring basis until redeemed, with changes in fair value presented in Change in fair value of warrants in the Condensed Consolidated Statements of Operations and Comprehensive Loss. These private warrants were classified within Level 3 due to the subjectivity and use of estimates in the calculation of their fair value.

During the three months ended September 30, 2025, one of the Company's warrant receivable arrangements was fully liquidated. The liquidation resulted in a realized gain recorded in the Condensed Consolidated Statement of Operations and Comprehensive Loss. Immediately prior to liquidation, the fair value of the warrants receivable was \$0.7 million. The Company received \$1.6 million in total consideration for the warrants. The liquidation of the warrants resulted in a realized gain of \$0.8 million recognized within the Other income line item within the Condensed Consolidated Statement of Operations and Comprehensive Loss.

In addition, the Company is eligible to receive a pro-rata portion of a contingent payment, upon the satisfaction of certain performance milestones. In accordance with ASC 450, *Contingencies*, the Company has not recognized any asset or gain related to this contingent payment right because realization is not considered probable. The Company will recognize any gain or revenue related to the contingent payment only when the performance criteria have been met and the payment is deemed certain and collectible.

### ***Equity Investments***

The Company owns equity securities in privately held companies. Their fair value is classified as Level III because the valuation relies primarily on unobservable inputs that require significant management judgment. While the valuation process utilizes inputs based on observable market transactions such as comparable company multiples or similar private placements, these must be significantly adjusted using unobservable assumptions to reflect the specific risks and characteristics of the non-marketable private investment. This reliance on subjective, unobservable inputs is the basis for the Level III classification and results in a higher degree of valuation uncertainty.

#### Character Biosciences, Inc.

On September 30, 2025, the Company determined it lost significant influence over Character Biosciences ("CB") following dilution of its ownership to approximately 8.1% due to CB's Series B funding rounds. Refer to Note 8 "Variable Interest Entity" for additional information the transition from equity method of accounting under ASC 323, *Investments - Equity Method and Joint Ventures*, to fair value measurement under ASC 321, *Investments - Equity Securities*. This transition resulted in the initial recognition of the investment at its fair value of approximately \$11.3 million.

The Company's investment in the equity securities of CB, which includes both Class A common stock and preferred stock, does not have a readily determinable fair value. It is measured at fair value on a recurring basis, with changes recognized in net income in accordance with ASC Topic 321, *Investments - Equity Securities*. This investment is classified as a Level 3 fair value measurement within ASC 820, *Fair Value Measurement*, hierarchy because its valuation relies on significant unobservable inputs.

The Company utilized a hybrid valuation approach that anchored the fair value to the most recent financing price. This price was then adjusted using significant unobservable inputs to reflect the contractual rights and liquidation preferences of the Company's security and a Discount for Lack of Marketability.

### **5. Healthcare Receivables**

Healthcare receivables include pharmaceutical rebates that are accrued as they are earned and estimated based on contracted rebate rates, eligible amounts submitted to the manufacturers by the Company's pharmacy manager, pharmacy utilization volume, and historical collection patterns. Also included in Healthcare receivables are Medicare Part D settlement receivables, member premium receivables, and other CMS receivables. The Company reported \$57.9 million and \$51.5 million within Healthcare receivables at September 30, 2025 and December 31, 2024, respectively.

### **6. Related Party Transactions**

#### ***Related party agreements***

The Company has various contracts with IJG Opco LLC (d/b/a CarePoint Health - Bayonne Medical Center), Hudson Hospital Opco, LLC (d/b/a CarePoint Health - Christ Hospital) and Hoboken University Medical Center Opco LLC (d/b/a CarePoint Health - Hoboken University Medical Center), which collectively do business as the CarePoint Health System ("CarePoint Health"), for the provision of inpatient and hospital-based outpatient services.

CarePoint Health was ultimately held and controlled by Vivek Garipalli, the Company's Executive Chairman and a significant stockholder of the Company. In May 2022, Mr. Garipalli and his family completed a donation of their interest in CarePoint Health to a non-profit organization called CarePoint Health Systems, Inc ("the CarePoint Nonprofit"). In September 2024, Sequoia Healthcare Services, LLC, an entity that Mr. Garipalli has an indirect interest in, transferred certain subsidiaries that provided services to CarePoint Health to the CarePoint Nonprofit. Following such transfer, neither Mr. Garipalli nor any entity he has an interest in currently provide any management services to CarePoint Health. On November 3, 2024, CarePoint Health and its affiliates filed petitions in the United States Bankruptcy Court for the District of Delaware (the "Bankruptcy Court") seeking relief under Chapter 11 of the United States Bankruptcy Code. Ultimately, the Bankruptcy Court confirmed CarePoint Health's plan which became effective as of May 22, 2025. Through CarePoint Health's Plan, a majority of CarePoint Health's assets, including the CarePoint Health Contracts, were transferred to Hudson Regional Hospital, who now controls CarePoint Health's hospitals following CarePoint Health's emergence from bankruptcy. As a result of such proceedings, CarePoint Health is no longer deemed a related party of the Company as defined by ASC 850, *Related Party Disclosures*. As such, expenses and fees incurred related to Clover's contracts with CarePoint Health, recorded in Net medical claims incurred, in the Condensed Consolidated Statements of Operations and Comprehensive Loss, were none and \$2.5 million for the three months ended September 30, 2025 and 2024, respectively, and \$4.4 million and \$5.3 million for the nine months ended September 30, 2025 and 2024, respectively. Additionally, \$1.0 million was payable to CarePoint Health at December 31, 2024.

The Company has a contract with Medical Records Exchange, LLC (formerly known as "ChartFast," now d/b/a Credo) pursuant to which the Company receives administrative services related to medical records retrieval via Credo's electronic applications and web portal platform. Vivek Garipalli, the Company's Executive Chairman and significant stockholder of the Company, is an indirect owner of Credo Health Solutions, Inc. Expenses and fees incurred related to this agreement were \$0.1 million and \$0.1 million for the three months ended September 30, 2025 and 2024, respectively, and \$0.4 million and \$0.5 million for the nine months ended September 30, 2025 and 2024, respectively.

Since July 2, 2021, the Company has contracted with Thyme Care, Inc. ("Thyme Care"), an oncology care management company, through which Thyme Care was engaged to provide cancer care management services to the Company's Insurance members and develop a provider network to help ensure member access to high-value oncology care. The Company and Thyme Care have amended the terms of the engagement, effective April 1, 2023, to include additional clinical services available to Clover members as well as the value based payment terms. The Company entered into an agreement with Thyme Care effective September 23, 2020 where the Company purchased 1,773,049 shares (less than five percent (5%) of its class A common stock). The fair value of these shares is \$3.9 million at September 30, 2025, and is recognized within Other assets, non-current, in the Condensed Consolidated Balance Sheets. In accordance with ASC 321, *Investments - Equity Securities*, any changes in fair value associated with these shares are recognized within Other income in the Condensed Consolidated Statements of Operations and Comprehensive Loss. Mr. Garipalli is a member of the board of directors of Thyme Care and holds an equity interest of less than five percent (5%) of that entity. Expenses and fees incurred related to this agreement were \$1.9 million and \$0.9 million for the three months ended September 30, 2025 and 2024, respectively, and \$6.1 million and \$3.2 million for the nine months ended September 30, 2025 and 2024, respectively. Additionally, \$7.2 million and \$3.3 million were payable to Thyme Care at September 30, 2025, and December 31, 2024, respectively.

The Company entered into a Master Services Agreement in July 2025 with Guidehealth, LLC or value-based care enablement and outsourced administrative services. These services primarily leverage technology and support teams to accelerate and enhance medication adherence rates and patient outcomes. Thomas Tran, a member of the Company's Board of Directors and Chair of the Company's Audit Committee, also serves as a director of Guidehealth and holds an ownership interest of less than 5% in Guidehealth. Pursuant to this agreement, the Company recognized \$0.3 million for the three and nine months ended September 30, 2025. Additionally, \$0.2 million was payable at September 30, 2025.

The Company holds a non-controlling equity investment in Character Biosciences, which is accounted for under ASC 321, *Investments - Equity Securities*, at fair value. As of September 30, 2025, the fair value of this investment was \$11.3 million is considered a related party due to the Company's Executive Chairman and a significant stockholder of the Company, Vivek Garipalli, serves as a member of Character Bioscience's Board of Directors. During the three months ended September 30, 2025, the Company transitioned its accounting for the investment in Character Biosciences from the equity method to the fair value method following a loss of significant influence. There were no transactions between the Company and Character Biosciences during the periods presented.

## 7. Unpaid Claims

Activity within the liability for Unpaid claims, including claims adjustment expenses, for the nine months ended September 30, 2025 and 2024, respectively, is summarized as follows:

Nine Months Ended September 30,	2025		2024	
	(in thousands)			
Gross and net balance, beginning of period	\$	156,396	\$	137,100
Incurred related to:				
Current year		1,120,914		780,461
Prior years		9,604		(31,523)
Total incurred		1,130,518		748,938
Paid related to:				
Current year		991,501		622,126
Prior years		154,956		96,502
Total paid		1,146,457		718,628
Gross and net balance, end of period	\$	140,457	\$	167,410

The Company uses two methods of standard actuarial techniques to establish unpaid claims reserves. Management estimates are supported by the Company's actuarial analysis. The Company utilizes an internal actuarial team to review the adequacy of unpaid claim and unpaid claim adjustment expense. The estimation of claim costs is inherently difficult and requires significant judgment. The estimation has considerable inherent variability and can fluctuate significantly depending upon several factors, including medical cost trends and claim payment patterns, general economic conditions, and regulatory changes. The time value of money is not taken into account for the purposes of calculating the liability for unpaid claims. Management believes that the current reserves are adequate based on currently available information.

### *Unpaid Claims for Insurance Operations*

Unpaid claims for Insurance operations were \$140.5 million at September 30, 2025. During the nine months ended September 30, 2025, \$155.0 million was paid for incurred claims attributable to insured events of prior years. An unfavorable development of \$9.6 million was recognized during the nine months ended September 30, 2025, resulting from the Company's actual experience with claims developing differently as compared to the Company's estimates at December 31, 2024. A favorable development of \$31.5 million was recognized during the nine months ended September 30, 2024, resulting from the Company's actual experience with claims developing differently as compared to the Company's estimates at December 31, 2023. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. The ratio of current year medical claims paid as a percentage of current year Net medical claims incurred was 88.5% for the nine months ended September 30, 2025, and 79.7% for the nine months ended September 30, 2024. This ratio serves as an indicator of claims processing speed, indicating that claims were processed at a faster rate during the nine months ended September 30, 2025, than during the nine months ended September 30, 2024. As a result of faster claims processing, unpaid claims liability decreased which was primarily due to claim submission and payment process improvements.

## 8. Variable Interest Entity and Equity Method of Accounting

On February 4, 2022, Character Biosciences, Inc. (f/k/a Clover Therapeutics Company) ("Character Biosciences" or "CB"), an affiliate of the Company, completed a private capital transaction in which it raised \$17.9 million from the issuance of 16,210,602 shares of its preferred stock. Upon completion of the transaction, the Company owned approximately 25.46% of Character Biosciences. As a result, the Company reassessed its interest in Character Biosciences and determined that while Character Biosciences is a VIE, the Company is not considered the primary beneficiary of the VIE because it does not have the power, through voting or similar rights and the license agreements, to direct the activities of Character Biosciences that most significantly impact Character Biosciences' economic performance. Since that initial financing, Character Biosciences has completed a series of additional capital raises through the issuance of its shares, each of which diluted the Company's ownership. As of September 30, 2025, the Company's ownership interest in Character Biosciences had decreased to approximately 8.1%.

During the Company's most recent qualitative assessment, it was concluded that the ability to exert significant influence over CB no longer exists at September 30, 2025. This change in conclusion was influenced by the recent rounds of funding dropping the Company's ownership below the 20% threshold and the lack of evidence to support continued significant influence. As a result, the Company has transitioned its recognition of its equity investment in CB from the equity method of accounting under ASC 323, *Investments - Equity Method and Joint Ventures*, to fair value measurement under ASC 321, *Investments - Equity Securities*. In accordance with ASC 321, the Company recognized the fair value of its equity investment in CB on its Condensed Consolidated Balance Sheet within Other assets, non-current and recognized the change in fair value within Other Income in its Condensed Consolidated Statement of Operations and Comprehensive Loss. The amount recognized as part of the transition was \$11.3 million for the three and nine months ended September 30, 2025. See Note 4 "Fair Value Measurements" for further information regarding the valuation techniques and inputs used to determine the fair value of this Level 3 investment.

## 9. Employee Benefit Plans

### *Employee Savings Plan*

The Company has a defined contribution retirement savings plan (the "401(k) Plan") covering eligible employees, which includes safe harbor matching contributions based on the amount of employees' contributions to the 401(k) Plan. The Company contributes to the 401(k) Plan annually 100.0% of the first 4.0% of compensation that is contributed by the employee up to 4.0% of eligible annual compensation after one year of service. The Company's service contributions to the 401(k) Plan amounted to approximately \$0.6 million for both the three months ended September 30, 2025 and 2024, respectively, and \$1.6 million for both the nine months ended September 30, 2025 and 2024, respectively, and are included in Salaries and benefits in the Condensed Consolidated Statements of Operations and Comprehensive Loss. The Company's cash match is invested pursuant to the participant's contribution direction. Employer contributions are immediately 100.0% vested.

### *Stock-based Compensation*

The Company's 2020 Equity Incentive Plan (the "2020 Plan") provides for grants of restricted stocks units ("RSUs"), performance-based restricted stock units ("PRSUs") and stock options to acquire shares of the Company's common stock, to employees, directors, officers, and non-employee consultants of the Company and its affiliates, and the Company's 2020 Management Incentive Plan (the "2020 MIP") provides for grants of RSUs and PRSUs to the Company's Executive Chair and CEO. During the year ended December 31, 2021, the Company approved the 2020 Plan and the 2020 MIP, and the Company's 2014 Equity Incentive Plan (the "2014 Plan") was terminated. When the 2014 Plan was terminated, the outstanding awards previously granted thereunder were assumed by the Company, and no new awards are available for grant under the 2014 Plan. Shares that are expired, terminated, surrendered, or canceled under the 2014 Plan without having been fully exercised are available for awards under the 2020 Plan. On March 9, 2022, the Board adopted the Company's 2022 Inducement Award Plan (the "Inducement Plan" and, collectively with the 2020 Plan, the 2020 MIP, and the 2014 Plan, the "Plans") without stockholder approval in accordance with Nasdaq Listing Rules. Under the Inducement Plan, the Company may grant non-qualified stock options, RSUs, stock appreciation rights, and other stock or cash-based awards to an employee in connection with his or her commencement of employment, or following a bona fide period of non-employment, with the Company or an affiliate.

The 2020 Plan has an evergreen provision that requires the number of shares available for issuance under the plan to be increased on the first day of each fiscal year beginning with the 2022 fiscal year and ending on (and including) the last day of the 2024 fiscal year, in each case, in an amount equal to the lesser of (i) seven percent (7%) of the outstanding shares of Class A common Stock on the last day of the immediately preceding fiscal year and (ii) such number of shares of Class A common Stock determined by the Board; provided that for each fiscal year beginning with the 2025 fiscal year through the fiscal year that includes the expiration date of the plan, each such increase shall be reduced to the lesser of five percent (5%) of the outstanding shares of Class A common Stock on the last day of the immediately preceding fiscal year or such number of shares as determined by the Board.

The maximum number of shares of the Company's common stock reserved for issuance over the term of the Plans, shares outstanding under the Plans, and shares remaining under the Plans at September 30, 2025 were as follows:

<b>September 30, 2025</b>	<b>Shares Authorized Under Plans</b>	<b>Shares Outstanding Under Plans</b>	<b>Shares Remaining Under Plans</b>
2014 Plan	54,402,264	33,772,840	N/A
2020 Plan	97,638,080	32,441,536	18,118,037
2020 MIP	33,426,983	20,056,191	—
Inducement Plan	11,000,000	3,858,652	—

The Plans are administered by the Talent and Compensation Committee of the Board (the "Compensation Committee"). Stock options granted under the Plans are subject to the terms and conditions described in the applicable Plan and the applicable stock option grant agreement. The exercise prices, vesting, and other restrictions applicable to the stock options are determined at the discretion of the Compensation Committee, except that the exercise price per share of incentive stock options may not be less than 100.0% of the fair market value of a share of common stock on the date of grant. Stock options awarded under the Plans expire 10 years after the grant date and generally vest over 4 years. The number of stock options granted is determined by dividing the approved grant date dollar value of an option by the Black Scholes option pricing value per share (as further discussed below). RSU awards are subject to the terms and conditions set forth in the Plans and the applicable RSU grant agreement. Vesting and other restrictions applicable to RSU awards are determined at the discretion of the Compensation Committee, but generally vest over one to four years from the date of the grant. The number of RSUs granted is determined by dividing the cash value of an RSU award by the average closing price of a share of the Company's Class A common stock over a specified period through the date of grant. The total estimated grant date fair value is amortized over the requisite service period.

The Company recorded Stock-based compensation for stock options, RSUs, and PRSUs granted under the Plans, and discounts offered in connection with the Company's 2020 Employee Stock Purchase Plan ("ESPP") of \$26.1 million and \$28.0 million during the three months ended September 30, 2025 and 2024, respectively, and \$78.7 million and \$84.7 million during the nine months ended September 30, 2025 and 2024, respectively, and such expenses are presented in Salaries and benefits in the Condensed Consolidated Statements of Operations and Comprehensive Loss.

Compensation cost presented in Salaries and benefits in the Condensed Consolidated Statements of Operations and Comprehensive Loss were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Stock options	\$ 42	\$ 384	\$ 336	\$ 1,532
RSUs	23,113	21,074	69,206	62,391
PRSUs	2,828	6,170	8,815	20,327
ESPP	123	360	381	436
Total compensation cost recognized for stock-based compensation plans	<u>\$ 26,106</u>	<u>\$ 27,988</u>	<u>\$ 78,738</u>	<u>\$ 84,686</u>

At September 30, 2025, there was approximately \$343.0 million of unrecognized stock-based compensation expense related to unvested stock options, unvested RSUs, unvested PRSUs and the ESPP.

#### Stock Options

The Company did not grant stock options during the nine months ended September 30, 2025 and 2024, respectively.

A summary of option activity under the 2020 Plan during the nine months ended September 30, 2025, was as follows:

	Number of stock options	Weighted- average exercise price
Outstanding, January 1, 2025	804,127	\$ 8.87
Granted	—	—
Exercised	—	—
Forfeited	(1,654)	8.87
Outstanding, September 30, 2025	<u>802,473</u>	<u>\$ 8.88</u>

A summary of stock option activity under the 2014 Plan during the nine months ended September 30, 2025, was as follows:

	Number of stock options	Weighted- average exercise price
Outstanding, January 1, 2025	23,465,666	\$ 2.73
Granted	—	—
Exercised	(389,784)	1.61
Forfeited	(49,914)	3.89
Outstanding, September 30, 2025	<u>23,025,968</u>	<u>\$ 2.75</u>

At September 30, 2025, outstanding stock options, substantially all of which are expected to vest, had an aggregate intrinsic value of \$19.8 million, and a weighted-average remaining contractual term of 3.74 years. At September 30, 2025, there were 23,828,441 options exercisable under the Plan, with an aggregate intrinsic value of \$19.8 million, a weighted-average exercise price of \$2.96 per share, and a weighted-average remaining contractual term of 3.74 years. The total value of stock options exercised during the nine months ended September 30, 2025 and 2024 was \$1.4 million and \$0.3 million, respectively. Cash received from stock option exercises during the nine months ended September 30, 2025 and 2024 totaled \$0.6 million and \$0.2 million, respectively.

#### *Restricted Stock Units*

A summary of total RSU activity is presented below:

	Number of RSUs	Weighted- average grant date fair value per share
Outstanding, January 1, 2025	55,731,587	\$ 3.67
Granted	4,091,980	3.28
Released	(20,648,983)	3.88
Forfeited	(1,216,834)	1.98
Outstanding, September 30, 2025	<u>37,957,750</u>	<u>\$ 3.57</u>

#### *Performance Restricted Stock Units*

The Company has granted PRSUs to certain executives and key employees, which become eligible to vest based on achievement of certain Company or individual performance milestones (“Non-Market PRSUs”) and certain Company stock price targets (“Market PRSUs”), each as determined by the Compensation Committee. Market PRSUs will vest if prior to the vesting date the average closing price of one share of the Company’s common stock for 90 consecutive days equals or exceeds a specified price. The PRSU expense referenced above is mainly attributable to Market PRSUs that vest based on pre-established milestones that primarily consist of the volume-weighted average stock closing price ranging from \$20 to \$30 for 90 consecutive days. The grant date fair value of the Non-Market PRSUs was based on the closing price of the Company’s Class A common stock and recognized as expense over the requisite performance period under the accelerated attribution method and is adjusted in future periods for the success or failure to achieve the specified performance condition. The grant date fair value of the Market PRSUs was determined using a Monte Carlo simulation model that incorporated multiple valuation assumptions, including the probability of achieving the specified market condition. Expense for Market PRSUs is recognized over the derived service period under the accelerated attribution method and is not adjusted in future periods for the success or failure to achieve the specified market condition.

The assumptions that the Company used in the Monte Carlo model to determine the grant date fair value of Market PRSUs granted for the year ended December 31, 2021, were as follows:

**Year ended December 31, 2021**

Expected volatility <sup>(1)</sup>	40.7 %
Risk-free interest rate <sup>(2)</sup>	0.5
Dividend yield <sup>(3)</sup>	—

<sup>(1)</sup> Expected volatility is based on a blend of peer group company historical data adjusted for the Company's leverage.

<sup>(2)</sup> Risk-free interest rate based on U.S. Treasury yields with a term equal to the remaining Performance Period as of the grant date.

<sup>(3)</sup> Dividend yield was assumed to be zero as the Company does not anticipate paying dividends.

At September 30, 2025, the market condition component of these PRSUs has not been met, so the awards have not been earned. This expense represents most of the PRSU expense recognized for the three months ended September 30, 2025 related to stock-based compensation plans which is presented in Salaries and benefits in the Condensed Consolidated Statements of Operations and Comprehensive Loss. The Company has also determined the requisite service period for the PRSUs with multiple performance conditions to be the longest of the explicit, implicit, or derived service period for each tranche.

A summary of PRSU activity is presented below:

	Number of PRSUs	Weighted- average grant date fair value per share
Non-vested, January 1, 2025	29,151,407	\$ 9.09
Granted during 2025	62,666	3.81
Adjustment for performance condition achieved <sup>(1)</sup>	99,558	0.94
Vested	(945,692)	1.12
Forfeited	(24,911)	1.19
Non-vested at September 30, 2025	<u>28,343,028</u>	<u>\$ 9.32</u>

<sup>(1)</sup> Represents an increase in the number of original CLOV performance share units awarded based on final achievement at the end of the performance period of such awards.

At September 30, 2025, there was \$3.0 million of unrecognized share-based compensation expense related to PRSUs.

*2020 Employee Stock Purchase Plan*

On January 6, 2021, the Board adopted and the Company's stockholders approved the ESPP, which permits eligible employees and service providers of either the Company or designated related companies and affiliates to contribute up to 15% of their eligible compensation during defined offering periods to purchase shares of the Company's Class A common stock at a 15% discount from the fair market value of the common stock as determined on specific dates at specific intervals. Subject to adjustments provided in the ESPP that are discussed below, the maximum number of shares of common stock that may be purchased under the ESPP is 14,163,863 shares, and the maximum number of shares that may be purchased on any single purchase date by any one participant is 5,000 shares. At September 30, 2025, 12,440,564 shares of Class A common stock were available for issuance under the ESPP.

The ESPP includes an evergreen provision that limits the maximum number of shares of Class A common stock that may be issued under the plan, to 2,785,582 shares, plus the number of shares of Class A common stock that are automatically added on the first day of each fiscal year beginning with the 2022 fiscal year and ending on (and including) the first day of the 2030 fiscal year, in an amount equal to the lesser of (i) one percent (1%) of the total number of shares of Class A common stock outstanding on the last day of the calendar month prior to the date of such automatic increase, and (ii) such number of shares of Class A common stock as determined by the Board; provided that the maximum number of shares of Class A common stock reserved under the ESPP shall not exceed 10.0% of the total outstanding capital stock of the Company (inclusive of the shares reserved under the ESPP) as of January 7, 2021, on an as-converted basis.

The assumptions that the Company used in the Black-Scholes option-pricing model to determine the fair value of the purchase rights under the ESPP for the most recent offering period, is as follows:

**Offering period from May 22, 2025 to November 22, 2025**

Weighted-average risk-free interest rate	4.3 %
Expected term (in years)	0.50
Expected volatility	52.4 %

**10. Income Taxes**

The consolidated effective tax rate of the Company for the three and nine months ended September 30, 2025 and 2024, was 0.0% and 0.0%, respectively. The Company continues to be in a net operating loss for the three and nine months ended September 30, 2025 and net deferred tax asset position. As a result, and in accordance with accounting standards, the Company recorded a valuation allowance to reduce the value of the net deferred tax assets to zero. The Company believes that at September 30, 2025, it had no material uncertain tax positions. Interest and penalties related to unrecognized tax expense (benefits) are recognized in income tax expense, when applicable.

On July 4, 2025, President Trump signed into law the One Big Beautiful Bill Act (“OBBBA”), which enacts significant changes to the US federal corporate income tax system. The legislation includes, among other provisions, modifications to the treatment of research and development expenditures, permanent 100% bonus depreciation, and changes to the interest deduction limitation under Section 163(j). The Company does not expect the legislation to have a material impact on the Company’s consolidated financial statements while the Company maintains a full valuation allowance on all net deferred tax assets.

There were no material liabilities for interest and penalties accrued at September 30, 2025 and December 31, 2024.

**11. Net Loss per Share**

Basic and diluted net loss per share from continuing operations attributable to Class A common stockholders and Class B common stockholders (collectively, "Common Stockholders") for the years indicated were calculated as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands, except for per share and share amounts)			
<b>Numerator:</b>				
Net loss from continuing operations attributable to common stockholders	\$ (24,377)	\$ (8,785)	\$ (36,229)	\$ (24,785)
Net (loss) income from discontinued operations attributable to common stockholders	—	(370)	—	3,868
<b>Denominator:</b>				
Weighted average number of common shares and common share equivalents outstanding, basic and diluted	512,743,521	490,180,103	510,191,111	488,501,812
Basic and diluted loss per share from continuing operations	\$ (0.05)	\$ (0.02)	\$ (0.07)	\$ (0.05)
Basic and diluted (loss) earnings per share from discontinued operations	\$ —	\$ —	\$ —	\$ 0.01

For all periods presented, the Company had net loss from continuing operations attributable to Common Stockholders. As a result, the Company's potentially dilutive securities, which include Options, RSUs, and PRSUs, have been excluded from the computation of diluted net loss per share from continuing operations, as the effect would be anti-dilutive. Therefore, during these periods, the diluted common shares outstanding equals the average common shares outstanding.

The following table presents the potentially dilutive shares that were excluded from the computation of diluted net loss per share of common stock:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Options to purchase common stock	23,828,441	24,532,236	23,828,441	24,532,236
RSUs	37,957,750	49,693,566	37,957,750	49,693,566
PRsUs	28,343,028	29,768,184	28,343,028	29,768,184
Total potentially dilutive shares excluded from computation of net loss per share	90,129,219	103,993,986	90,129,219	103,993,986

## 12. Commitments and Contingencies

### *Legal Actions*

Various lawsuits against the Company may arise in the ordinary course of the Company's business. Contingent liabilities arising from ordinary course litigation, income taxes and other matters are not expected to be material in relation to the financial position of the Company. At September 30, 2025, and December 31, 2024, respectively, there were no material known contingent liabilities arising outside the normal course of business other than as set forth below. In accordance with ASC No. 450-20, *Loss Contingencies*, we will record accruals for loss contingencies when it is probable that a liability has been incurred and the amount of loss can be reasonably estimated.

### *Securities Class Actions and Investigations*

Beginning in February 2021, the Company received subpoenas from the SEC related to certain disclosures and aspects of our business as well as certain matters described in an article issued on February 4, 2021, by Hindenburg Research LLC (the "Hindenburg Article"). The Company cooperated with the SEC's investigation (the "Investigation"). The Hindenburg Article, which discussed, among other things, an inquiry by the U.S. Attorney's Office for the Eastern District of Pennsylvania relating to, among other things, certain of the Company's arrangements with providers participating in its network and programs, and Clover Assistant, was the subject of the Company's Current Report on Form 8-K dated February 5, 2021. As previously disclosed on the Company's Current Report on Form 8-K filed on September 30, 2024, by letter dated September 26, 2024 (the "Notice"), the Staff of the SEC Division of Enforcement notified the Company that the SEC had concluded the Investigation, and based on the information that the SEC had as of the date of the Notice, the Staff did not intend to recommend an enforcement action by the SEC against the Company relating to the Investigation.

In February 2021, the Company and certain of its directors and officers were named as defendants in putative class actions filed in the United States District Court for the Middle District of Tennessee: Bond v. Clover Health Investments, Corp. et al., Case No. 3:21-cv-00096 (M.D. Tenn.); Kaul v. Clover Health Investments, Corp. et al., Case No. 3:21-cv-00101 (M.D. Tenn.); Yaniv v. Clover Health Investments, Corp. et al., Case No. 3:21-cv-00109 (M.D. Tenn.); and Tremblay v. Clover Health Investments, Corp. et al., Case No. 3:21-cv-00138 (M.D. Tenn.). The complaints asserted violations of sections 10(b) and 20(a) of the Exchange Act and Rule 10b-5 promulgated under the Exchange Act. The Kaul action asserted additional claims under sections 11 and 15 of the Securities Act. The complaints generally related to allegations published in the Hindenburg Article. In April 2021, the Middle District of Tennessee class actions were consolidated under Bond v. Clover Health Investments, Corp. et al., Case No. 3:21-cv-00096 (M.D. Tenn.) as the lead case. On April 21, 2023, the parties to the securities class action entered into a memorandum of understanding providing for the settlement of the action. The Court approved the settlement and dismissed the action with prejudice on October 3, 2023. Under the settlement, the class received \$22 million dollars (less an award of fees and expenses to the plaintiffs' counsel), and the defendants (including the Company) received customary releases. The Company used \$19.5 million in insurance proceeds to fund the settlement. The Company previously filed a lawsuit in Delaware state court against certain of its insurers for full payment of its liabilities related to this securities litigation. The Company has since executed settlement agreements with each of the insurer parties to resolve all claims and counterclaims.

### 13. Operating Segments

Clover Health has one reportable segment: Insurance. The Insurance segment provides PPO and HMO plans to Medicare Advantage members in several states. The segment information is prepared on the same basis that the Company's chief executive officer, who is the Chief Operating Decision Maker ("CODM"). These segment groupings are consistent with information used by the CODM, to assess performance and allocate resources. Net income is used to monitor budget versus actual results. The CODM also uses net income in competitive analysis by benchmarking to the Company's competitors. The competitive analysis along with the monitoring of budgeted versus actual results are used in assessing performance of the segment and in establishing management's compensation. The accounting policies of the insurance segment are the same as those described in the summary of significant accounting policies.

Insurance Segment	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Premiums earned, net (net of ceded premiums)	\$ 479,128	\$ 322,579	\$ 1,405,860	\$ 1,014,201
Less:				
Net medical claims incurred	428,855	251,643	1,190,954	767,125
Salaries and benefits	46,495	53,598	164,920	166,440
General and administrative expenses	47,226	34,307	144,943	121,796
Segment net loss	\$ (43,448)	\$ (16,969)	\$ (94,957)	\$ (41,160)
Reconciliation:				
Elimination of intersegment profits	\$ 5,382	\$ 1,869	\$ 36,047	\$ 3,842
Other income	17,522	8,407	30,741	19,967
Other salaries and benefits	(1,700)	(1,397)	(3,606)	(3,277)
Other general and administrative expenses	(1,727)	(894)	(3,169)	(2,398)
Depreciation and amortization	(406)	(339)	(1,266)	(987)
Restructuring recoveries (costs)	—	538	—	(288)
Change in fair value of warrants	—	—	(19)	(17)
Loss on investment	—	—	—	(467)
Net loss from continuing operations	\$ (24,377)	\$ (8,785)	\$ (36,229)	\$ (24,785)
Total assets	\$ 386,716	\$ 431,231	\$ 386,716	\$ 431,231

### 14. Dividend Restrictions

The Company's regulated insurance subsidiaries are subject to regulations and standards in their respective jurisdictions. These standards, among other things, require these subsidiaries to maintain specified levels of statutory capital and limit the timing and amount of dividends and other distributions that may be paid to their parent companies. Therefore, the Company's regulated insurance subsidiaries' ability to declare and pay dividends is limited by state regulations including obtaining prior approval by the New Jersey Department of Banking and Insurance. At September 30, 2025 and December 31, 2024, neither of the regulated insurance subsidiaries had been authorized nor paid any dividends.

## 15. Restructuring costs

On April 17, 2023, the Company announced it would implement certain business transformation initiatives, including an agreement to move its core MA operational platform to UST HealthProof's ("UST HealthProof") and additional corporate restructuring actions. The agreement with UST HealthProof includes the transition of certain of the Company's plan operation functions in support of its Medicare Advantage members pursuant to a master services agreement. In addition to the arrangement with UST HealthProof, in April 2023 the Company conducted a reduction in force to better align its Selling, General, and Administrative cost structure with its revenue base. This restructuring resulted in the elimination of approximately 10% of the Company's workforce. The Company incurred costs related to these business transformation initiatives, which consisted of employee termination benefits, vendor related costs, and other costs, which are accounted for as exit and disposal costs and recorded pursuant to ASC 420, *Exit or Disposal Cost Obligations*. These activities were concluded by December 31, 2024. During the three months ended September 30, 2025 and 2024, the Company recovered zero and \$0.5 million, respectively. For the nine months ended September 30, 2025 and 2024, the Company recognized zero and \$0.3 million, respectively, of expenses related to these activities in the Condensed Consolidated Statements of Operations and Comprehensive Loss. As of September 30, 2025, the remaining vendor-related liability is being reduced through the contractually scheduled payments. This liability is recognized within Accounts payable and accrued expenses in the Condensed Consolidated Balance Sheets.

## 16. Discontinued Operations

On December 1, 2023, the Company notified CMS that it would no longer participate as a REACH ACO in connection with the 2024 performance year. The Company's exit from the ACO REACH Program was made after the Company determined that it was in its best interest to fully exit the program, following its November 2022 announcement of a strategic reduction in the number of ACO REACH participating physicians in 2023. Subsequent to the 2023 performance year, the remaining activities related to the December 2024 settlement with CMS for prior performance years. During the three months ended September 30, 2025, the Company recognized net loss of zero, and for the nine months ended September 30, 2025, the Company recognized a net loss of zero. During the three and nine months ended September 30, 2024, the Company recognized a net loss of \$0.4 million and net income of \$3.9 million income, respectively.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

*The following discussion and analysis provides information that management believes is relevant to an assessment and understanding of our condensed consolidated results of operations and financial condition. The discussion should be read in conjunction with the unaudited condensed consolidated financial statements and notes thereto for the three and nine months ended September 30, 2025, contained in this Quarterly Report on Form 10-Q (the "Form 10-Q") and the audited consolidated financial statements and notes thereto for the year ended December 31, 2024, contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2024, filed with the Securities and Exchange Commission (the "SEC") on March 3, 2025 (the "2024 Form 10-K"). This discussion contains forward-looking statements and involves numerous risks and uncertainties, including, but not limited to, those described in the "Risk Factors" section of the 2024 Form 10-K. Actual results may differ materially from those contained in any forward-looking statements. See "Cautionary Note Regarding Forward-Looking Statements" for additional information. Unless the context otherwise requires, references in this "Management's Discussion and Analysis of Financial Condition and Results of Operations" to "we," "us," "our," "Clover," "Clover Health," and the "Company" mean the business and operations of Clover Health Investments, Corp. and its consolidated subsidiaries.*

### Overview

At Clover Health, our vision is to empower every physician with the technology to identify, manage, and treat chronic diseases earlier. Our strategy is to improve the care of people with Medicare, develop wide physician networks, and provide technology to help empower physicians. Our proprietary software platform, Clover Assistant (licensed externally as Counterpart Assistant), helps us execute this strategy by enabling physicians to detect, identify, and manage chronic diseases earlier than they otherwise could. This technology is a cloud-based software platform that provides physicians with access to data-driven and personalized insights for the patients they treat.

We operate Preferred Provider Organization ("PPO") and Health Maintenance Organization ("HMO") Medicare Advantage ("MA") plans for Medicare-eligible individuals. We aim to provide high-quality, affordable healthcare for all Medicare beneficiaries. Among plans with similar major characteristics, we offer most members in our MA plans (the "members") among the lowest average out-of-pocket costs for primary care provider and specialist co-pays in their markets. We strongly believe in providing our members provider choice, and we consider our PPO plans to be our flagship insurance product. An important feature of our MA product is wide network access. We believe the use of Clover Assistant and related data insights allows us to improve clinical decision-making through a highly scalable platform. At September 30, 2025, we operated our MA plans in five states and 200 counties, with 109,226 members.

### Recent Developments

#### *CMS Star Ratings*

On October 9, 2025, the Company announced that CMS has decreased the Star rating of its PPO Medicare Advantage plans to 3.5 Stars for 2026, which will affect payment year 2027. Additionally, CMS increased the rating of Clover's HMO MA plan to 4.0 Stars. As a reminder, currently over 97% of our insurance members are members of our PPO Medicare Advantage Plans.

### Key Performance Measures

We manage our operations based on one reportable segment: Insurance. Through our Insurance segment, we provide PPO and HMO plans to Medicare Advantage members in several states. All other clinical services and all corporate overhead not included in the reportable segments are included in Corporate/Other.

The segment grouping is consistent with the information used by our Chief Executive Officer (identified as our chief operating decision maker) ("CODM") to assess performance and allocate the Company's resources.

We review several key performance measures, discussed below, to evaluate our business and results, measure performance, identify trends, formulate plans, and make strategic decisions. We believe that the presentation of such metrics is useful to management and counterparties to model the performance of healthcare companies such as Clover.

Through our Insurance segment, we provide PPO and HMO plans to members in several states. We seek to improve care and lower costs for our members by empowering providers with intuitive data-driven, personalized insights to support treatment of members through our software platform, Clover Assistant.

The following table presents key financial measures for the periods indicated:

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2025		2024		2025		2024	
	Total	PMPM <sup>(1)</sup>	Total	PMPM <sup>(1)</sup>	Total	PMPM <sup>(1)</sup>	Total	PMPM <sup>(1)</sup>
	(amounts in thousands, except PMPM amounts)							
Insurance members at period end (#)	109,226	N/A	81,110	N/A	109,226	N/A	81,110	N/A
Premiums earned, gross	\$ 479,220	\$ 1,467	\$ 322,676	\$ 1,333	\$ 1,406,144	\$ 1,485	\$ 1,014,502	\$ 1,409
Premiums earned, net	\$ 479,128	\$ 1,467	\$ 322,579	\$ 1,333	\$ 1,405,860	\$ 1,484	\$ 1,014,201	\$ 1,409

<sup>(1)</sup> Calculated per member per month ("PMPM") figures are based on the applicable amount divided by member months in the given period. Member months represents the number of months members are enrolled in a Clover Health plan in the period.

#### *Membership and associated premiums earned and medical claim expenses*

We define new and returning members on a calendar year basis. Any member who is active on July 1 of a given year is considered a returning member in the following year. Any member who joins a Clover plan after July 1 in a given year is considered a new member for the entirety of the following calendar year. We view our number of members and associated PMPM premiums earned and medical claim expenses, in the aggregate and on a PMPM basis, as useful metrics to assess our financial performance. Member growth and retention aligns with our mission, drives our Total revenues, expands brand awareness, deepens our market penetration, creates additional opportunities to inform our data-driven insights to improve care and decrease medical claim expenses, and generates additional data to continue to improve the functioning of Clover Assistant. Among other things, the longer a member is enrolled in one of our insurance plans, the more data we collect and synthesize and the more actionable insights we generate. We believe these data-driven insights lead to better care delivery as well as improved identification, documentation and management of members' chronic conditions, helping to lower PMPM medical claim expenses.

#### *Premiums earned, gross*

Premiums earned, gross is the amount received, or to be received, for insurance policies written by us during a specific period of time without reduction for premiums ceded to reinsurance. We believe premiums earned, gross provides useful insight into the gross economic benefit generated by our business operations and allows us to evaluate our underwriting performance without regard to changes in our underlying reinsurance structure. Premiums earned, gross excludes the effects of premiums ceded to reinsurers, and therefore should not be used as a substitute for Premiums earned, net, Total revenues, or any other measure presented in accordance with generally accepted accounting principles in the United States ("GAAP").

#### *Premiums earned, net*

Premiums earned, net represents the earned portion of our premiums earned, gross, less the earned portion that is ceded to third-party reinsurers under our reinsurance agreements. Premiums are earned in the period in which members are entitled to receive services, and are net of estimated uncollectible amounts, retroactive membership adjustments, and any adjustments to recognize rebates under the minimum benefit ratios required under the ACA.

We earn premiums through our plans offered under contracts with CMS. We receive premiums from CMS on a monthly basis based on our actuarial bid and the risk-adjustment model used by CMS. Premiums anticipated to be received within twelve months based on the documented diagnostic criteria of our members are estimated and included in revenues for the period, including the member months for which the payment is designated by CMS.

Premiums ceded is the amount of premiums earned, gross ceded to reinsurers. From time to time, we enter into reinsurance contracts to limit our exposure to potential losses as well as to provide additional capacity for growth. Under these agreements, the "reinsurer," agrees to cover a portion of the claims of another insurer, i.e., us, the "primary insurer," in return for a portion of their premium. Ceded earned premiums are earned over the reinsurance contract period in proportion to the period of risk covered. The volume of our ceded earned premium is impacted by the level of our premiums earned, gross and any decision we make to adjust our reinsurance agreements.

#### *Insurance gross medical claims incurred*

Insurance gross medical claims incurred reflects claims incurred, excluding amounts ceded to reinsurers, and the costs associated with processing those claims. We believe gross medical claims incurred provides useful insight into the gross medical expense incurred by members and allows us to evaluate our underwriting performance without regard to changes in our underlying reinsurance structure.

Insurance gross medical claims incurred excludes the effects of medical claims and associated costs ceded to reinsurers, and therefore should not be used as a substitute for Net claims incurred, Total operating expenses, or any other measure presented in accordance with GAAP.

#### *Insurance net medical claims incurred*

Insurance net medical claims incurred are our medical expenses and consist of the costs of claims, including the costs incurred for claims net of amounts ceded to reinsurers. We enter into reinsurance contracts to limit our exposure to potential catastrophic losses. These expenses generally vary based on the total number of members and their utilization rate of our services.

#### Non-GAAP Financial Measures

We use non-GAAP measures in this Form 10-Q, including Insurance BER, Adjusted SG&A, Adjusted EBITDA, and Adjusted Net income from continuing operations. These non-GAAP financial measures are provided to enhance the reader's understanding of Clover Health's past financial performance and our prospects for the future. Clover Health's management team uses these non-GAAP financial measures in assessing Clover Health's performance, as well as in planning and forecasting future periods. These non-GAAP financial measures are not computed according to GAAP, and the methods we use to compute them may differ from the methods used by other companies. Non-GAAP financial measures are supplemental to and should not be considered a substitute for financial information presented in accordance with GAAP and should be read only in conjunction with our condensed consolidated financial statements prepared in accordance with GAAP.

For a description of these non-GAAP financial measures, including the reasons management uses such measures, and the reconciliations of these non-GAAP financial measures to the comparable GAAP measures, please see "Benefits expense ratio, gross and net", "Adjusted SG&A", "Adjusted EBITDA", and Adjusted Net income from continuing operations below.

*Benefits expense ratio, gross and net*

Benefits expense ratio ("Insurance BER") is a non-GAAP financial measure. We calculate our Insurance BER by taking the total of Insurance net medical expenses incurred and quality improvements, and dividing that total by premiums earned on a net basis, in a given period. Quality improvements include expenses associated with activities that improve health outcomes, as defined by the U.S. Department of Health and Human Services ("HHS"), as well as those directly tied to enhancing healthcare quality, such as the Company's spend on health information technology, wellness and prevention programs, initiatives to reduce hospital readmissions, and our clinically focused Member Rewards program. We believe our Insurance BER is useful to management, investors, and others because it offers a clearer and more accurate representation of our investment in healthcare quality and member engagement, and gives a comprehensive view of costs related to maintaining and improving the quality of care of our members, which is crucial for sustaining member satisfaction and adherence to treatment regimens. Furthermore, Normalized Insurance BER adjusts out activity related to prior period development. Prior period development refers to changes in the Company's Insurance Revenue and Insurance Medical claims levels from previous periods. Management believes that Normalized Insurance BER presents a clearer representation of performance during the current period being presented.

The tables below provide reconciliations of Net medical claims incurred and Premiums earned on a gross and net basis which are GAAP measures, to Insurance BER, a non-GAAP measure.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Net medical claims incurred, gross (GAAP):	\$ 428,882	\$ 251,856	\$ 1,191,154	\$ 767,338
Adjustments				
Quality improvements	19,341	15,445	66,244	50,383

Prior period development	(1.1)	2.6	(0.5)	4.3
Normalized benefits expense ratio, net (non-GAAP)	92.4 %	85.4 %	88.9 %	84.9 %

### Adjusted SG&A

Adjusted Salaries and benefits plus General and Administrative expenses ("SG&A") is a non-GAAP financial measure defined by us as total SG&A less stock-based compensation and non-recurring legal expenses and settlements. We believe that Adjusted SG&A provides management, investors, and others a useful view of our operating spend as it excludes non-cash, stock-based compensation and expenses related to investments that management believes do not reflect the Company's core operating expenses. We believe that Adjusted SG&A as a percentage of Total revenues is useful to management, investors, and others because it allows us to measure our operational leverage as revenue scales.

The table below provides a reconciliation of Total SG&A, a GAAP financial measure, to Adjusted SG&A, a non-GAAP measure:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Salaries and benefits	\$ 48,195	\$ 54,995	\$ 168,526	\$ 169,717
General and administrative expenses	48,953	35,201	148,112	124,194
Total SG&A (GAAP)	97,148	90,196	316,638	293,911
Adjustments				
Stock-based compensation	(26,106)	(27,988)	(78,738)	(84,686)
Non-recurring legal expenses and settlements	24	(259)	(1,234)	(632)
Adjusted SG&A (non-GAAP)	\$ 71,066	\$ 61,949	\$ 236,666	\$ 208,593
Total revenues (GAAP)	\$ 496,650	\$ 330,986	\$ 1,436,601	\$ 1,034,168
Adjusted SG&A (non-GAAP) as a percentage of Total revenues	14.3 %	18.7 %	16.5 %	20.2 %

### Adjusted EBITDA

Adjusted EBITDA is a non-GAAP financial measure defined by us as net loss from continuing operations before depreciation and amortization, loss on investment, interest expense, change in fair value of warrants, stock-based compensation, premium deficiency reserve expense, restructuring (recoveries) costs, impairment of goodwill and other intangible assets, and non-recurring legal expenses and settlements. Adjusted EBITDA is a key measure used by our management team and the board of directors to understand and evaluate our operating performance and trends, to prepare and approve our annual budget and to develop short and long-term operating plans. In particular, we believe that the exclusion of the amounts eliminated in calculating Adjusted EBITDA provide useful measures for period-to-period comparisons of our business. Accordingly, we believe that Adjusted EBITDA provides investors and others useful information to understand and evaluate our operating results in the same manner as our management and our board of directors.

The table below provides a reconciliation of Net (loss) income from continuing operations, a GAAP financial measure, to Adjusted EBITDA, a non-GAAP financial measure:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Net loss from continuing operations (GAAP):	\$ (24,377)	\$ (8,785)	\$ (36,229)	\$ (24,785)
Adjustments				
Depreciation and amortization	406	339	1,266	987
Change in fair value of warrants	—	—	19	17
Loss on investment	—	—	—	467
Stock-based compensation	26,106	27,988	78,738	84,686
Restructuring (recoveries) costs	—	(538)	—	288
Non-recurring legal expenses and settlements	(24)	259	1,234	632
Adjusted EBITDA (non-GAAP)	\$ 2,111	\$ 19,263	\$ 45,028	\$ 62,292

*Adjusted Net income from continuing operations*

Adjusted Net income from continuing operations is a non-GAAP financial measure defined by us as net loss from continuing operations before stock-based compensation, premium deficiency reserve benefit, restructuring (recoveries) costs, non-recurring legal expenses and settlement, and impairment of goodwill and other intangible assets. Adjusted Net income from continuing operations is a key measure used by our management team and the board of directors to understand and evaluate our operating performance and trends. We believe that Adjusted Net income from continuing operations is helpful to investors in assessing the Company's financial performance in the same manner as our management and our board of directors.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
	(in thousands)			
Net loss from continuing operations (GAAP)	\$ (24,377)	\$ (8,785)	\$ (36,229)	\$ (24,785)
Adjustments				
Stock-based compensation	26,106	27,988	78,738	84,686
Restructuring (recoveries) costs	—	(538)	—	288
Non-recurring legal expenses and settlements	(24)	259	1,234	632
Adjusted Net income from continuing operations (non-GAAP)	\$ 1,705	\$ 18,924	\$ 43,743	\$ 60,821

## Results of Operations

### Comparison of the Three Months Ended September 30, 2025 and 2024

The following table summarizes our condensed consolidated results of operations for the three months ended September 30, 2025 and 2024. The period-to-period comparison of results is not necessarily indicative of results for future periods.

	Three Months Ended September 30,		Change Between 2025 and 2024	
	2025	2024	(\$)	(%)
(in thousands)				
<b>Revenues</b>				
Premiums earned, net (Net of ceded premiums of \$92 and \$97 for the three months ended September 30, 2025 and 2024, respectively)	\$ 479,128	\$ 322,579	\$ 156,549	48.5 %
Other income	17,522	8,407	9,115	108.4
Total revenues	496,650	330,986	165,664	50.1
<b>Operating expenses</b>				
Net medical claims incurred	423,473	249,774	173,699	69.5
Salaries and benefits	48,195	54,995	(6,800)	(12.4)
General and administrative expenses	48,953	35,201	13,752	39.1
Depreciation and amortization	406	339	67	19.8
Restructuring recoveries	—	(538)	538	*
Total operating expenses	521,027	339,771	181,256	53.3
Loss from continuing operations	(24,377)	(8,785)	(15,592)	177.5
Net loss from continuing operations	(24,377)	(8,785)	(15,592)	177.5
Net loss from discontinued operations	—	(370)	370	*
Net loss	\$ (24,377)	\$ (9,155)	\$ (15,222)	166.3 %

\* Not presented because the current or prior period amount is zero or the amount for the line item changed from a gain to a loss (or vice versa) and thus yields a result that is not meaningful.

#### Premiums earned, net

Premiums earned, net increased \$156.5 million, or 49%, to \$479.1 million for the three months ended September 30, 2025, compared to the three months ended September 30, 2024. The increase was primarily driven by growth in our average members over the period, which increased approximately 35%.

#### Other income

Other income increased by \$9.1 million, or 108%, to \$17.5 million for the three months ended September 30, 2025, compared to the three months ended September 30, 2024. The increase was primarily driven by an increase in fair value of our equity investments.

#### Net medical claims incurred

Net medical claims incurred increased \$173.7 million, or 70%, to \$423.5 million for the three months ended September 30, 2025, compared to the three months ended September 30, 2024. The increase was primarily driven by growth in our average members during the period, which increased approximately 35% and an increase in our Part D cost sharing due to changes arising from the Inflation Reduction Act. Additionally, prior year amounts were impacted by more favorable prior period developments as compared to the current year.

#### Salaries and benefits

Salaries and benefits decreased by \$6.8 million, or 12%, to \$48.2 million for the three months ended September 30, 2025, compared to the three months ended September 30, 2024. This decrease was primarily driven by a decrease in the Company's variable incentive bonus accruals. This was partially offset by an increase in base salaries driven primarily by headcount growth.

#### General and administrative expenses

General and administrative expenses increased \$13.8 million, or 39%, to \$49.0 million for the three months ended September 30, 2025, compared to the three months ended September 30, 2024. The increase was primarily driven by higher professional fees and higher broker fees, with the latter being driven by membership growth during the most recent annual enrollment period.

### Comparison of the Nine Months Ended September 30, 2025 and 2024

The following table summarizes our condensed consolidated results of operations for the nine months ended September 30, 2025 and 2024. The period-to-period comparison of results is not necessarily indicative of results for future periods.

	Nine Months Ended September 30,		Change Between 2025 and 2024	
	2025	2024	(\$)	(%)
(in thousands)				
<b>Revenues</b>				
Premiums earned, net (Net of ceded premiums of \$284 and \$301 for the nine months ended September 30, 2025 and 2024, respectively)	\$ 1,405,860	\$ 1,014,201	\$ 391,659	38.6 %
Other income	30,741	19,967	10,774	54.0
Total revenues	1,436,601	1,034,168	402,433	38.9
<b>Operating expenses</b>				
Net medical claims incurred	1,154,907	763,283	391,624	51.3
Salaries and benefits	168,526	169,717	(1,191)	(0.7)
General and administrative expenses	148,112	124,194	23,918	19.3
Depreciation and amortization	1,266	987	279	28.3
Restructuring costs	—	288	(288)	*
Total operating expenses	1,472,811	1,058,469	414,342	39.1
Loss from continuing operations	(36,210)	(24,301)	(11,909)	49.0
Change in fair value of warrants	19	17	2	28.3
Loss on investment	—	467	(467)	*
Net loss from continuing operations	(36,229)	(24,785)	(11,444)	46.2
Net income from discontinued operations	—	3,868	(3,868)	*
Net loss	\$ (36,229)	\$ (20,917)	\$ (15,312)	73.2 %

\* Not presented because the current or prior period amount is zero or the amount for the line item changed from a gain to a loss (or vice versa) and thus yields a result that is not meaningful.

#### **Premiums earned, net**

Premiums earned, net increased \$391.7 million, or 39%, to \$1,405.9 million for the nine months ended September 30, 2025, compared to the nine months ended September 30, 2024. The increase was primarily driven by growth in our average members over the period, which increased approximately 32%.

#### **Other income**

Other income increased by \$10.8 million, or 54%, to \$30.7 million for the nine months ended September 30, 2025, compared to the nine months ended September 30, 2024. The increase was primarily driven by an increase in fair value of our equity investments.

#### **Net medical claims incurred**

Net medical claims incurred increased \$391.6 million, or 51%, to \$1,154.9 million for the nine months ended September 30, 2025, compared to the nine months ended September 30, 2024. The increase was primarily driven by growth in our average members during the period, which increased approximately 32% and an increase to our Part D cost sharing due to changes arising from the Inflation Reduction Act. Additionally, prior year amounts were impacted by more favorable prior period developments as compared to the current year.

#### **Salaries and benefits**

Salaries and benefits remained materially consistent decreasing by \$1.2 million, or 1%, to \$168.5 million for the nine months ended September 30, 2025 as compared to the nine months ended September 30, 2024.

#### **General and administrative expenses**

General and administrative expenses increased \$23.9 million, or 19%, to \$148.1 million for the nine months ended September 30, 2025, compared to the nine months ended September 30, 2024. The increase was primarily driven by higher professional fees and higher broker fees, with the latter being driven by membership growth during the most recent annual enrollment period.

## Liquidity and Capital Resources

We manage our liquidity and financial position in the context of our overall business strategy. We continually forecast and manage our cash, investments, working capital balances, and capital structure to meet the short-term and long-term obligations of our businesses while seeking to maintain liquidity and financial flexibility.

Historically, we have financed our operations primarily from the proceeds we received through premiums earned under our MA plans. We expect that our cash, cash equivalents, investments, and our current projections of cash flows, taken together, will be sufficient to meet our projected operating and regulatory requirements for the next 12 months based on our current plans. Our future capital requirements will depend on many factors, including our needs to support our business growth, to respond to business opportunities, challenges or unforeseen circumstances, or for other reasons. We may be required to seek additional equity or debt financing to provide the capital required to maintain or expand our operations. Any future equity financing may be dilutive to our existing investors, and any future debt financing may include debt service requirements and financial and other restrictive covenants that may constrain our operations and growth strategies. If additional financing is required from outside sources, we may not be able to raise it on terms acceptable to us, or at all. If we are unable to raise additional capital when desired, our business, results of operations, and financial condition would be adversely affected.

### *Consolidated Entities*

Our cash equivalents and investment securities consist primarily of money market funds, U.S. government debt securities, and corporate debt securities. At September 30, 2025 and December 31, 2024, total cash, cash equivalents, and investments were \$395.9 million and \$437.6 million, respectively. These totals consist of \$205.9 million and \$243.1 million at September 30, 2025 and December 31, 2024, respectively, that specifically relate to available-for-sale and held-to-maturity investment securities.

### *Unregulated Entities*

At September 30, 2025 and December 31, 2024, total cash, cash equivalents, and investments for the parent company, Clover Health Investments, Corp., and unregulated subsidiaries were \$122.9 million and \$151.5 million, respectively. We operate as a holding company in a highly regulated industry. As such, we may receive dividends and administrative expense reimbursements from our subsidiaries, two of which are subject to regulatory restrictions. We continue to maintain significant levels of aggregate excess statutory capital and surplus in our state-regulated insurance subsidiaries.

### *Regulated Entities*

At September 30, 2025 and December 31, 2024 total cash, cash equivalents, and investments for our regulated subsidiaries were \$273.0 million and \$286.1 million, respectively. Additionally, our regulated insurance subsidiaries held \$205.9 million and \$243.1 million of available-for-sale and held-to-maturity investment securities at September 30, 2025 and December 31, 2024, respectively. Our use of operating cash derived from our unregulated subsidiaries is generally not restricted by departments of insurance (or comparable state regulatory agencies). Our regulated insurance subsidiaries are subject to regulations and standards in their respective jurisdictions on their ability to declare and pay dividends to the parent. As of September 30, 2025, there have been no dividends paid to the parent. Insurance regulators have broad powers to prevent reduction of statutory surplus to inadequate levels, and there is no assurance that dividends of the maximum amounts calculated under any applicable formula would be permitted. State insurance regulatory authorities that have jurisdiction over the payment of dividends by our regulated insurance subsidiary may in the future adopt statutory provisions more restrictive than those currently in effect.

For a detailed discussion of our regulatory requirements, including aggregate statutory capital and surplus as well as dividends paid from the subsidiaries to the parent, please refer to Notes 19 "Dividend Restrictions", 20 "Statutory Equity", and 21 "Regulatory Matters" in the 2024 Form 10-K.

## Cash Flows

The following table summarizes our condensed consolidated cash flows for the nine months ended September 30, 2025 and 2024.

Nine Months Ended September 30,	2025	2024
	(in thousands)	
Cash Flows Data:		
Net cash provided by operating activities from continuing operations	\$ 1,218	\$ 129,539
Net cash provided by investing activities	39,071	2,004
Net cash used in financing activities	(44,777)	(11,220)
(Decrease) increase in cash and cash equivalents from continuing operations	\$ (4,488)	\$ 120,323

### ***Cash Requirements***

Our cash requirements within the next twelve months include medical claims payable, accounts payable and accrued liabilities, current liabilities, purchase commitments, and other obligations. We expect the cash required to meet these obligations to be primarily generated through cash, cash equivalents, short-term investments, and our current projections of cash flows from operations.

### ***Operating Activities from Continuing Operations***

Our largest source of operating cash flows is capitated payments from CMS. Our primary uses of cash from operating activities are payments for medical benefits and payments of operating expenses.

For the nine months ended September 30, 2025, Net cash used in operating activities from continuing operations was \$1.2 million, which reflects a Net loss from continuing operations of \$36.2 million. Non-cash activities primarily included a \$78.7 million charge to Stock-based compensation expense.

For the nine months ended September 30, 2024, Net cash provided by operating activities from continuing operations was \$129.5 million, which reflects a Net loss from continuing operations of \$24.8 million. Non-cash activities primarily included a \$84.7 million charge to Stock-based compensation expense and Unpaid claims increased by \$30.3 million.

### ***Investing Activities***

Net cash provided by investing activities for the nine months ended September 30, 2025 of \$39.1 million was primarily due to \$139.5 million provided from the sales and maturities of investment securities. This was offset by \$99.0 million used to purchase investments.

Net cash provided by investing activities for the nine months ended September 30, 2024, of \$2.0 million was primarily due to \$156.6 million provided from the sales and maturities of investment securities. This was offset by \$153.3 million used to purchase investments.

For additional information regarding our investing activities, please refer to Note 3 "Investment Securities" to our condensed consolidated financial statements included in this Form 10-Q.

### ***Financing Activities***

Net cash used in financing activities for the nine months ended September 30, 2025 of \$44.8 million was primarily the result of cash paid for shares withheld related to stock-based compensation totaling \$27.7 million and share repurchases totaling \$18.3 million of Class A Common stock.

Net cash used in financing activities for the nine months ended September 30, 2024 of \$11.2 million was primarily the result of cash paid for shares withheld related to stock-based compensation totaling \$9.7 million and repurchases of \$1.8 million of Class A Common stock.

### ***Financing Arrangements***

There have been no material changes to our financing arrangements at September 30, 2025.

### ***Contractual Obligations and Commitments***

We believe that funds from projected future operating cash flows, cash, cash equivalents, and investments will be sufficient for future operations and commitments, and for capital acquisitions and other strategic transactions, over at least the next 12 months.

Material cash requirements from known contractual obligations and commitments at September 30, 2025 include operating lease obligations of \$2.8 million. These commitments are associated with contracts that were enforceable and legally binding at September 30, 2025, and that specified all significant terms, including fixed or minimum serves to be used, fixed, minimum, or variable price provisions, and the approximate timing of the actions under the contracts. There were no other material cash requirements from known contractual obligations and commitments at September 30, 2025. For additional information regarding our remaining estimated contractual obligations and commitments, see Note 12 "Commitments and Contingencies" in the accompanying notes to the condensed consolidated financial statements included in this Form 10-Q.

### ***Indemnification Agreements***

In the ordinary course of business, we enter into agreements, with various parties (providers, vendors, consultants, etc.), with varying scope and terms, pursuant to which we may agree to defend, indemnify, and hold harmless the other parties from any claim, demand, loss, lawsuit, settlement, judgment, fine, or other liability, and all related expenses that may accrue therefrom (including reasonable

attorneys' fees), arising from or in connection with third party claims, including, but not limited to, negligence, recklessness, willful misconduct, fraud, or otherwise wrongful act or omission with respect to our obligations under the applicable agreements.

#### **Off-balance Sheet Arrangements**

We do not have any off-balance sheet arrangements, as defined by applicable regulations of the SEC, that are reasonably likely to have a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures, or capital resources.

#### **Critical Accounting Policies and Estimates**

We believe that the accounting policies and estimates involve a significant degree of judgment and complexity. There have been no significant changes in our critical accounting policies and estimates during the three months ended September 30, 2025, as compared to the critical accounting policies and estimates disclosed in the section titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in the 2024 Form 10-K.

#### **Recently Issued and Adopted Accounting Pronouncements**

See Note 2 "Summary of Significant Accounting Policies" in the accompanying notes to the condensed consolidated financial statements included in this Form 10-Q for a discussion of accounting pronouncements recently adopted and recently issued accounting pronouncements not yet adopted and their potential impact to our condensed consolidated financial statements.

#### **Item 3. Quantitative and Qualitative Disclosures About Market Risk**

Market risk is the risk of economic losses due to adverse changes in the estimated fair value of a financial instrument as the result of changes in equity prices, interest rates, foreign currency exchange rates and commodity prices. Our Condensed Consolidated Balance Sheets include assets and liabilities with estimated fair values that are subject to market risk. Our primary market risk has been interest rate risk associated with investments in instruments with fixed maturities. We do not have material exposure to commodity risk.

We are also exposed to credit risk on our investment portfolio. We manage the exposure to credit risk in our portfolio by investing in high quality securities and diversifying our holdings.

We monitor our investment portfolio to ensure that credit risk does not exceed prudent levels. Our investment policy is focused on preservation of capital, liquidity and earning a modest yield. Substantially all of our investment portfolio is invested in U.S. Treasury fixed maturity securities. At September 30, 2025, none of our fixed maturity securities portfolio was unrated or rated below investment grade.

## **Item 4. Controls and Procedures**

### **Evaluation of Disclosure Controls and Procedures**

Disclosure controls are procedures that are designed with the objective of ensuring that information required to be disclosed in our reports filed under the Exchange Act, such as this report, is recorded, processed, summarized, and reported within the time period specified in the SEC's rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to our management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure. Our management evaluated, with the participation of our current chief executive officer and chief financial officer (our "Certifying Officers"), the effectiveness of our disclosure controls and procedures at September 30, 2025, pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Based upon that evaluation, our Certifying Officers concluded that, at September 30, 2025, our disclosure controls and procedures were effective.

We do not expect that our disclosure controls and procedures will prevent all errors and all instances of fraud. Disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the disclosure controls and procedures are met. Further, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and the benefits must be considered relative to their costs. Because of the inherent limitations in all disclosure controls and procedures, no evaluation of disclosure controls and procedures can provide absolute assurance that we have detected all our control deficiencies and instances of fraud, if any. The design of disclosure controls and procedures also is based partly on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

### **Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II

### Item 1. Legal Proceedings

From time to time, in the normal course of business, we are subject to various legal proceedings, investigations (both formal and informal), and claims incidental to the conduct of a highly regulated business. Such proceedings can be costly, time consuming, and unpredictable. Therefore, no assurance can be given on the outcome of any proceeding or the potential impact on our financial condition or results of operation.

Information concerning legal proceedings can be found in Note 12 (Commitments and Contingencies) in the accompanying notes to condensed consolidated financial statements included in Part I, Item 1 of this Form 10-Q, which information is incorporated by reference into this item.

### Item 1A. Risk Factors

Except as subsequently disclosed in our periodic reports, there have been no material changes in our risk factors from those disclosed in Part I, Item 1A of the 2024 Form 10-K. In the course of conducting our business operations, we are exposed to a variety of recurring and new risks, any of which have affected or could materially adversely affect our business, financial condition, and results of operations. The market price of our Class A common stock could decline, possibly significantly or permanently, if one or more of these risks and uncertainties occurs. Any factor described in this report or in any of our other SEC filings could by itself, or together with other factors, adversely affect our financial results and condition. For a discussion of risk factors that could adversely affect our financial results and condition, and the value of, and return on, an investment in the Company, please see the "Item 1A. Risk Factors" section included in the 2024 Form 10-K, as well as the factors identified under "Cautionary Note Regarding Forward-Looking Statements" at the beginning of Part I, Item 1 of this Form 10-Q and as may be updated in subsequent filings with the SEC.

### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

### Item 3. Defaults Upon Senior Securities

None.

### Item 4. Mine Safety Disclosures.

Not applicable.

### Item 5. Other Information.

During the three months ended September 30, 2025, none of the Company's directors or officers (as defined in Rule 16a-1(f) of the Exchange Act) adopted or terminated a Rule 10b5-1 trading arrangement or non Rule 10b5-1 trading arrangement (as such terms are defined in Item 408(a) of Regulation S-K of the Securities Act).

## Item 6. Exhibits and Financial Statement Schedules

A list of exhibits to this Form 10-Q is set forth below:

<b>Exhibit No.</b>	<b>Description</b>
31.1*	<a href="#"><u>Certification of Principal Executive Officer Pursuant to Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002</u></a>
31.2*	<a href="#"><u>Certification of Principal Financial Officer Pursuant to Rules 13a-14(a) and 15d-14(a) under the Securities Exchange Act of 1934, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002</u></a>
